(54) Title: ARTICLE ATTACHMENT SYSTEM

(57) Abstract: An article attachment system (10) for a vehicle is disclosed having an elongated rail member (20) adapted to attach to the vehicle where the rail member (20) defines at least one partially enclosed space with at least one slide interface and a plurality of projections, and a bracket (60) operably engaging the rail (20) and adapted for mounting at least one article (12), and a positioning device (80) operably engaging the bracket (60) and having at least one extension adapted to move between an engaged position adapted for securing the article (12) to the rail (20) and a released position adapted for moving the article (12) relative to the rail (20).
